COMPLETE AND PROGRESSIVE

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

Numerical Telephone Directory

1970

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The Publishers are very careful in using these numbers but do not assume any responsibility in case of error. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
