The law of Alabama provides that any person who fails to relinquish a telephone party line after he has been requested to do so, to permit another to place a call in an emergency to a fire or police department or for medical aid or ambulance service or any person who shall request the use of a party line by falsely stating that the same is needed in an emergency shall be guilty of a misdemeanor. MODERN TELEPHONE SERVICES

Speakerphones

A special microphone and small loudspeaker associated with this telephone enable you to carry on a conversation without lifting the receiver. The sensitive microphone picks up your voice from several feet away and frees both hands while talking. It can also be used as a regular telephone.

The Call Director

This streamlined, modern, functional piece of telephone equipment is designed for today's business requirements. Available in a choice of several colors and equipped with versatile push buttons which give access to a number of lines, hold calls while answering others and permit signaling and conferencing arrangements.

Additional Telephone Lines

A separate number in your home or place of business makes it easier for friends or customers to reach you. Ideal, too, for large families or for your "teen-ager."

Telephone - Planning

THE TIME TO PLAN

The communications needs of every commercial or industrial building and high-rise apartment building should be considered in the early stages of planning. A check list includes:

- Riser systems
- Raceway (underfloor ducts or cellular floor systems)
- Telephone outlets
- Zone closets
- PBX equipment rooms
- Main terminal room
- Service from the street

Before you integrate the communications system into your basic building plans, you will want to consult the Architects and Builders Service of your local Bell Telephone Company.

IT'S CONTAGIOUS . . .

When someone speaks pleasantly to you, it is easy to answer in the same manner. It's really catching! Many, many times you form your impression of people—and they judge you—by the sound of the voice over the telephone.

**DON'T MISS
IMPORTANT CALLS**

You can never tell when someone will call with an important message. If your telephone receiver has been forgetfully left off the hook, you'll miss that call, because the bell can't ring and the caller will find the line "busy."
