I went by the courthouse this morning and spoke to Donna Frederick. She said the LDS flattened and scanned those Evidence Files so they may be on the LDS website. She said they are also available on microfilm at the library and in the basement of the courthouse, but if you go in the basement they do not have time to show you how to use the machine that reads the microfilm. Then she told me the easiest way... They are indexed in "Will Index Book 3" in the Probate Office. I checked my great great grandfather's name because I know it appears in the index we have at the Heritage Center and sure enough it was in "Will Index Book 3," which led us to find it in another book. It is a Probate record on his estate.

Donna also said that no court records are ever destroyed. They are stored away.

I hope you have a Happy New Year!
