PRESLEY WOODALL STORE, WOODVILLE, ALABAMA

LEDGER 1853

From the "Story of Woodville" by John R. Kennamer, page 64, I quote, "Presley Woodall sold goods at Old Woodville at an early date." We do not know the date the store opened. This 1853 Ledger has amounts brought forward dated April 1853. On page 144 we find an entry dated February 17, 1854. Nowhere in the Ledger is the location mentioned. Many of the charge customers were living in the Woodville area when the 1850 census was taken.

We have concluded that the Ledger originally contained 300 pages. We only have two pages of the index. The two index sheets contain the A's , B's, part of the C's and one D. The first one hundred seventeen pages are missing. Pages 166 through 185 are missing. Pages 189 through 296 are missing. Many of the names in the Ledger are not found in the 1840 or 1850 census.

This index is a part of a larger index of various mid 19th century account books. The code letters PW refer to the Presley Woodall account book.

The Scottsboro-Jackson Heritage Center is grateful to Carlus Page for providing the copies of the original book and to Elizabeth Page and Glenys Dyer for their assistance in arranging the index.
