The SEQUATCHIE VALLEY BIBLE RECORDS is produced in response to a great need for vital information on the families of Sequatchie Valley. In doing research into the book SEQUATCHIE FAMILIES it was noticed that the vital records of the three different counties within the Valley were almost non-existent. In Bledsoe County, formed in 1807, the births and deaths exist only from 1908 and the marriages from 1905 due to a fire in the Court House in 1908. In Marion County, formed in 1817, have marriages and births & deaths from about 1881 and many others were lost in a fire in 1922. In Sequatchie County, the records are somewhat better as they do have the marriages records from the beginning of the county in 1857 and some births & deaths exist from about 1880.

The enclosed material was gathered over a period of years and came from a variety of sources. Some of this was gathered in March of 1937 by Bessie Johnson, copist, in the WPA work for the Tennessee State Archives when they gathered a number of Bible records in Sequatchie County. Others came from individuals who copied the records in their Bibles and sent these into me for use in the various research projects for the Valley. I am indebted to each of them for their contribution.

Each of the Bible records is numbered at the beginning and this number is the one used in the index process.

It is the hope of the author that this material will be of benefit of the serious researcher into their families. It is meant to be a guide to help establish the time period for the researcher. We have found some differences of dates from the materials located on various tombstones within the valley. Some dates cannot be established exactly.
