The above cemetery is located on the property of Buck King and R. L. Lytle in Section 19 - Twp. 8 S - R 3 E, Marshall County, Alabama. Elev. 601. This cemetery seems to be abandoned and the identity of all graves unknown. Present accessibility is on foot only and will not be impaired by the flood waters from Guntersville Dam. I recommend that no graves be removed and that no access road to same be provided.

CEMETERY # 9, KENNAMER, PUBLIC, 64 GRAVES

CEMETERY # 8 - KELLEY PUBLIC - 61 Graves

This cemetery is located on the property of S. D. Presley et al in Section #29 - Twp. 5 S - R 5 E, Jackson County, Alabama. Elev. 608 Present accessibility is by County Road and on foot and the same will not be impaired by the flood waters from Guntersville Dam. I recommend that this cemetery be not moved.

CEMETERY #11 - GRANTHAM PRIVATE - 47 GRAVES

This cemetery is located on the property of the Grantham (Heirs) in Section #19 - Twp. 6 S - R 3 E, Marshall County, Alabama. Elev. 621. This cemetery seems to be approximately 75 years old and the majority of the graves are well marked with monuments. Present access to the cemetery is by private road from the County Road. This private road, approximately .3 miles long is in poor condition. The County Road will be flooded and is to be relocated. New access will necessitate constructing a low class road from the proposed road, a distance of approximately .6 miles. Should the cost of this proposed access road make construction of same prohibitive, I recommend that we contact surviving relatives of the deceased and offer to move the graves. I believe we can write the majority to remain.

CEMETERY #13 - PRESTON PUBLIC - 208 GRAVES

This cemetery is located on the property of Solomon Benson in Section #14 - Twp. 6 S - R 4 E, Marshall County, Alabama. Elev. 643. GUNTERSVILLE RESERVOIR

CEMETERY #16 - HARDIN PRIVATE - 61 Graves

This cemetery is located on the property formerly owned by Emma Kate Hardin in Section 13 - Twp. 7 S - R 2 E, Marshall County, Alabama. Elev. 637. This cemetery has 61 graves, well kept and with interments as recently as 1936. Present access is by a private road along the river which will be flooded by the building of Guntersville Dam. This cemetery will be accessible only by an old private wagon road approximately 5 miles over the top of Bishop Mountain. Mr. R. E. Rush of the Highway Section informs writer that the cost of constructing an access road to this cemetery is prohibitive and that no such road will be built. We will be able to identify approximately 50 of these graves and locate surviving relatives of the same. We have interviewed nearest relatives to the majority of the deceased and Andrew Hardin and Mrs. Dona Morrow insist that we either build road into cemetery or move their deceased relation, 13 in number, to some other suitable cemetery. The relatives of the other deceased desire to have their relation remain.

I recommend that we contact surviving relatives of all the identified graves and secure removal or remain permits.

CEMETERY #18 - UNNAMED ABANDONED - NUMBER OF GRAVES INDEF.

This cemetery is located on the property of the First Joint Stock Land Bank of Montgomery, Ala. in Section #8 - Twp. 7 S - R 4 E Marshall County, Alabama. Elev. 595.

This is an old abandoned cemetery in a sassafras thicket. The physical evidence of all the graves is obliterated and we are unable to determine the number of graves or the exact location of the same. We interviewed Mr. Jim Taylor, Scottsboro, Ala. who is 87 years old and the oldest resident of this community and he stated that he had lived in this community his entire life and that he had never known nor heard of any persons name who is buried in this cemetery. He assured me that there has been no burial here since 1864 and that the general belief is that it is an old slave cemetery, owners unknown. Present access is by foot across a cultivated field. We are unable to write removal or remain permits for same and I recommend that this cemetery be not moved.

CEMETERY #19 - KIRBY PRIVATE - 3 GRAVES

This cemetery is located on the property of W. N. Bain in Section #9 Twp. 7 S - R 5 E, Marshall County, Alabama. Elev. 651

The cemetery seems to be old and abandoned but we have located a surviving relative of the deceased therein. Present access is by private road, in poor condition, and by foot. This road will be flooded by the backwaters of Guntersville Dam. I recommend that we contact the nearest relatives of the deceased and secure removal or remain permits for the same.

CEMETERY #20 - CHANDLER PRIVATE - NUMBER OF GRAVES INDEF.

This cemetery is located on the property of S. J. Walls in Section #4 Twp. 7 S - R 4 E, Marshall County, Alabama. Elev. 600.

The physical evidence of all the graves has been obliterated and we are unable to determine the exact number or location of graves. Records indicate there has not been a burial here for the past 83 years. Present access is by a private road which will be inundated by the flood waters of Guntersville Dam. I have contacted C. F. Chandler, A. G. Chandler and Jesse Jones, the nearest surviving relatives to all the deceased and executed an agreement with them whereby all the bodies will remain.

I recommend that this cemetery be not moved nor access be provided for same.

CEMETERIES TO BE FLOODED

CEMETERY # 5 RUSSELL PUBLIC, 31 GRAVES

This Cemetery located on the Property of J. G. Russell in Section 20, TWP 8 S, R 3 E, Marshall County, Ala. Elevation 590. Final action on this cemetery now pending. Mr. J. G. Russell owner of the land adjoining the Cemetery, will not permit the TVA to enter this property to remove any graves. He states that his reasons for so doing is that the TVA has not yet acquired his property and that his wife is ill and he does not want any operations in the Cemetery, which is located near his residence, until he has moved from property. Mr. Russell is the nearest relative to 17 of the deceased in the Cemetery and he states that "he does not want them moved" but he will not sign any permit for them to remain. We have contacted nearest relatives of 17 of the deceased and executed permits for 11 to remain and 6 to be moved to the Clear Springs Cemetery. There are 4 graves we are unable to identify or locate relatives for same. To complete this Cemetery it will be necessary to send a removal crew here some time after Mr. Russell has been removed from Property and move graves No. 22-23-24-25-26 and 27 to the Clear Springs Cemetery. Advise Mrs. Eula E. Smith, 1012 N. 30th Street, Birmingham, Ala., a few days prior to the this operation, the exact day of the operation, so that she may attend if she so desires. The remainder of the graves will be inundated. Removal orders and Permits may be found in the file for Russell Cemetery.

PRELIMINARY REPORT ON CEMETERIES

GUNTERSVILLE RESERVOIR

⁴⁰
CEMETERY #39 - WHEELER PRIVATE - APPROXIMATELY 12 GRAVES

This cemetery is located on the property of E. L. Franklin in Jones Cove, Jackson County, Alabama and is above the pool level of Guntersville Dam. Present access is by private road and on foot and same will be flooded by the Guntersville Reservoir. This cemetery is very old and has been abandoned. Physical evidence as to the exact location of ^{individual} graves is very vague. We have executed an agreement with the nearest relative of all the deceased whereby the cemetery is to be not disturbed but remain inaccessible by roadway.
