ATHLETICS

The prospects for athletics at the Jackson County High School this coming session are brighter than ordinary. This department will be under a highly competent athletic director and coach, a "Wade trained" man. Indication are to the effect we will have some splendid material in the school this year for football, basketball and other branches of sport.

Mr. Davie, the coach, will be glad for any prospective students to come to him and talk over plans for athletics this fall and winter. He expects to start intensive football training right away and will carry everything forward on a definite program.
