# Dedication

Lillie  
Buckner

To a gracious lady, who for the past five years, has shown her loyalty to North Sand Mountain, her fairness in dealing with both students and faculty, and her sincere interest in our betterment . . .

As a long overdue acknowledgment from students who have received a great deal of education due to her dedication, it is with a feeling of great admiration and respect that we dedicate the 1973 Cameronian to Mrs. Lillie Buckner.

Smiles . . . conveyed by you and me and the people all around us.

What would one day be like without the human factor?

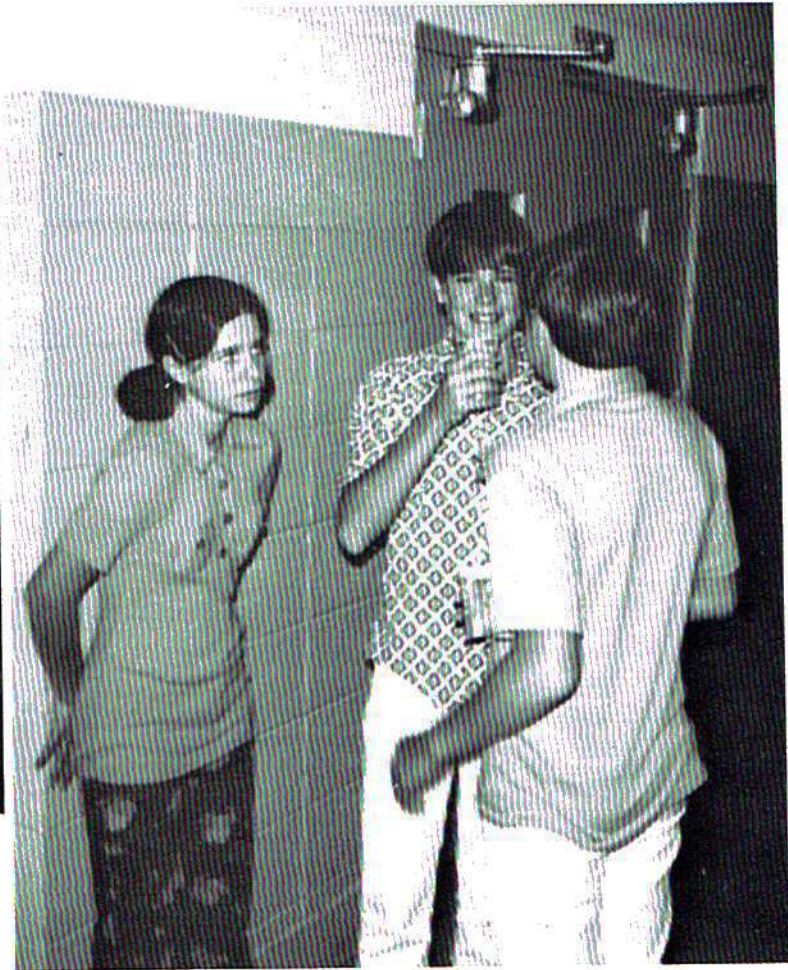

We relate to others with a look, a touch, a motion. We relate one to one, one to two, and one to many. How we relate and what we relate is a personal matter born in the mind and heart.

As one of a crowd, or one of a pair, you take your place in the rank and file of humanity.

You stand among many as an individual . . . unique, rare, and beautiful.

You can come down now, Mr. Carter. We threw the rat out.

Good, Jan, only six mistakes! Now let's look at the second line.

Attaboy, Billy! That's using your head!

Yes, Greg. Babies do come from jelly beans.

All right, go to sleep! I didn't want to talk to you anyway.

I still haven't found the formula for LSD.

Pssst! Travis! Who discovered America?

O.K., pal, you take this bus to Cuba, or I'll fill you full of lead.
