WHAT IS LIFE!

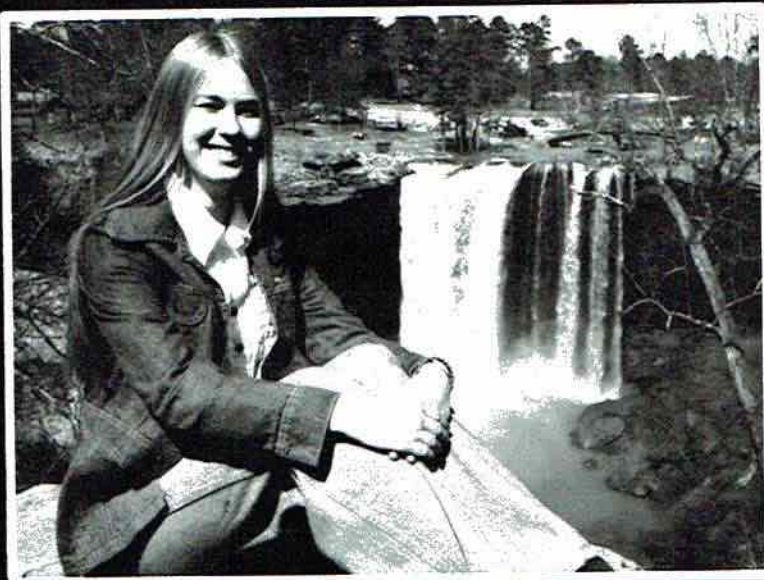

*It's ours-to enjoy, to create,
To learn, each in our own way.
Times, places, people
That we can learn from
Over and over again,
And we can celebrate them
For the rest of our lives.*

the good times roll!
What revolutionary

How we wished the

The Youthfulness
Would never end!*

What is a teacher?

"A teacher is a flower that blossoms each child's thoughts into a beautiful arrangement."

"A teacher is a learner of others; a leader not a pusher."

"A teacher is a person who laughs and cries a lot and encourages others."

"A teacher is one who is human enough to be a real person and honest and strong enough to do what the title implies without fear."

"A teacher is somebody that tries to share with students what they have learned and to promote good behavior and character."

"A teacher is one who is able to impart love, understanding and knowledge to others."

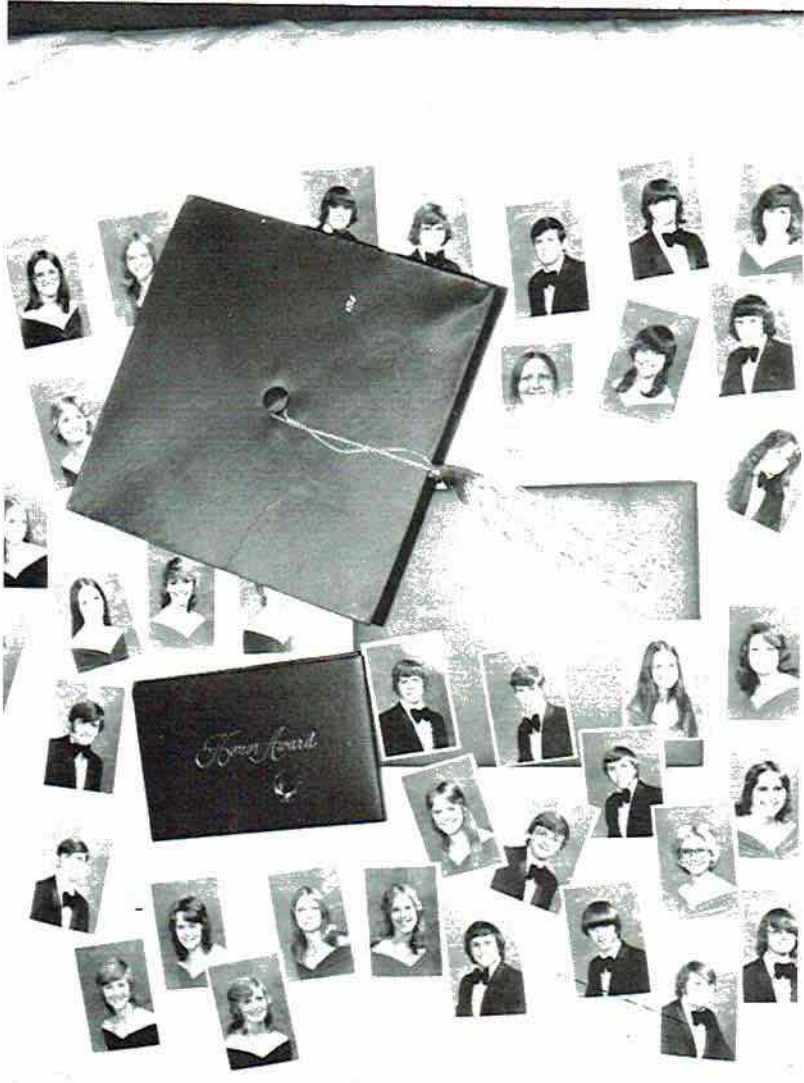

"A teacher is a person who is paid less than an electrician but still gets a charge out of his work."

"A teacher is a person with a good nervous system."

All our lives everything has been planned, everything has been laid out before us. We followed in someone else's footsteps. We were only taking someone else's place.

Yet we are unique, in our own lives, personalities, ideas and goals. We are one-united: Like our country-one out of many, "The Class of '76."

Listen!

At your graduation exercises, the commencement speaker will say something to the effect that "the future of this nation is in your hands" or "you are being given a great challenge".

They always say things like that at graduation exercises. It seems to be the thing to do.

They've said it so much that most folks expect it and don't even hear it.

That's bad... because it's true.

The future is in your hands... whether you hear it or not... and whether you like it or not.

Do something about it... Listen.
