## *Class Prophecy*

We, Williard Townson and Jo Reynolds, newspaper reporters for the Section Times, have the assignment to report on the government of Mars. The year is 1995 and our means of transportation to Mars is, of course, by space ship.

When we arrived at the airport, we were greeted by the hostess, Lajoy Lassetter, and guess who the pilot was--that big robust fellow, Jerry Zeigler, who was always boasting what a good pilot he would be some day. And we thought he would never make it!

On the ship we met the former Joy Lambert and her children. Shirley Gillispie, a home economics teacher, and the famous "hobo," Stanford Nix, all former students of Section High School. They were going on a pleasure trip to Mars.

While on the ship, we had a call from Earth. The telephone operator, Patsy Patterson, told us Carter Mays, the sheriff of Section, was having trouble with the suspected bootlegger, James Robbins, and that he was now in the capable hands of the law.

We learned that the new principal of Section High School is Milford McCutchen, and he has a very promising math teacher, Richard Long.

At last we landed on Mars, and there to greet us was the guide, Jimmy Haynes, who led us to the Queen of Mars, Sue Johns. She told us about the new hospital where the distinguished doctor, Bobby Downey, and head nurse, Alta Faye Robbins, were employed. She also told us that more and more former students of Section High were

coming to Mars to make it a permanent residence.

We saw Wilma Jones, the owner of the Metropolitan Theatre, who asked us to see the play that was being shown. The star, Linda Thomas, now a well-known comedienne, and co-star, Jewell Patterson, an opera singer, put on an astonishing performance. At the opera we met the former Paula Reed and her family, and she was telling us what a success Doris Lands was having as a cutter of rare diamonds that were being found on the planet.

Completing a hard day's work on the government, it was now time to return to Earth. Pearl Rae Dukes, first woman president, with Kay Wilson, her secretary, were at the airport to compliment us on our business trip. On guard was Major Clomer Holway and F. B. I. agent, John Haynes.

We enjoyed seeing all these people of high school days and hope to return to Mars in the near future. We climbed into the shiny new helicar, which is a lot like the helicopters we used to know. As the car carried us home automatically, we talked about how our class has progressed with our modern times.
