## *A Message From the Principal to the Senior Class of '59*

### *The Principal's Message*

Observing students make the desired social development from the time they enter high school until their graduation is one of the rewards of teaching. As I review your experiences, I have a feeling of satisfaction that you have gained much from them.

I want to commend you on your progress thus far and remind you that even though some of you may soon end your formal education, life will continue to offer opportunities for your development. So may I urge you to make the most of your opportunities and live the fullest life possible.

To the annual staff and Mrs. Jones, your faculty advisor, I want to express for all of us who will enjoy this publication, our sincere thanks for your earnest and efficient work.

Sincerely your friend,

*Roy Buford*

We humbly dedicate the 1959 Mountaineer to one who has been more than a teacher to us. She has given us understanding, guidance and leadership. Her wonderful sense of humor has added "spice" to our school days.
