# 1966 MOUNTAINEER

SECTION HIGH SCHOOL

SECTION, ALABAMA

# FOREWORD

By the time this is read the school year 1965-66 will be mostly history --little will be in the future for the year. It is hoped that each student will have grasped the significance of the opportunity being offered in education to all citizens who want it and even to those who must be forced to accept it.

In the pages of this book an attempt has been made to capture the spirit of Section School. To the staff who have attempted to capture this spirit much credit is due. Their work has been done with no pay and perhaps little recognition.

To the Faculty recognition is due, for through their efforts the destiny of the school is shaped. Co-operation of the faculty and student body will make a SHS you will be happy to be in as well as look back to in later years.
