Listen!

At your graduation exercises, the commencement speaker will say something to the effect that "the future of this nation is in your hands" or "you are being given a great challenge".

They always say things like that at graduation exercises. It seems to be the thing to do.

They've said it so much that most folks expect it and don't even hear it.

That's bad... because it's true.

The future is in your hands... whether you hear it or not... and whether you like it or not.

Do something about it... Listen.
